

IN THE DRAWINGS

The Examiner objects to that magnetic housing 20 is not shown in any figures of the drawings. We assume that the Examiner refers to "magnet holders 20" page 10, line 13; and "holders 20" page 10, line 17 in the substitute specifications.

Applicants have amended figures 1-6, in that additional reference numerals have been added so that reference numeral 12 indicate magnets and reference numeral 20 indicate the magnet holder. Basis for the amendments of the figures may be found in the specification where the section following line 13 on page 10 reads: "Subsequently, the magnets 12 are fastened to magnet holders 20 and subsequently attached to the cast-in coil 10. Then, the armature 8 is provided." Basis may further be found in the specification on page 9, line 8 which clarifies the position of the magnets in relation to the armature: "The armature 8 extends through a coil 10 and magnets 12".
